

**Tenure track Position at the Department of Bioresource Sciences,
Faculty of Agriculture, Shizuoka University, Japan**

Department of Bioresource Sciences, Faculty of Agriculture of Shizuoka University is inviting applications for five year tenure track assistant professor position with financial support for research. Aimed at development of innovative biological sciences, the department of Bioresource Sciences, Faculty of Agriculture is seeking a tenure track assistant professor for researching in the area of horticultural sciences.

Tenure track system at Shizuoka University aims to provide promising young researchers with opportunities to promote their scientific carriers, and to nurture their talents and skills in research, leadership, management, and education. Holders of tenure track positions are expected to primarily undertake scientific research in their respective fields. However, since eventually they will also undertake teaching responsibilities, tenure track program includes duties to guide thesis projects of students. Holders of tenure track positions are promoted to tenured positions upon successful completion of tenure track program. Extremely competent individuals may be promoted to tenured positions even earlier.

Shizuoka University hires foreign professors (those with nationality other than Japanese citizenship) to promote internationalization both in education and research. Foreign researchers (who have nationality other than Japanese citizenship) can apply for this public invitation. In addition, Shizuoka University is committed to equal employment opportunities regardless of nationality, race, gender, or religion.

1. Job Description

Department of Bioresource Sciences promotes education and research aimed at the development of human resources who will be active nationally and internationally in the field of plant science, including horticultural science of pomology, vegetable crop science, floricultural science, and postharvest physiology. The successful candidate would be expected to promote the top-level academic research in these fields and contribute to teaching scientific English and Advanced Plant Production I•II for Bachelor/ Master course students.

Field	Keywords	No. of Positions	Contacts
Horticultural Science	Pomology, Vegetable crop science Floricultural science Postharvest physiology	Assistant Professor (1 position)	Professor Masaya Kato Phone: +81-54-238-4830 E-mail: kato.masaya@shizuoka.ac.jp
