

Faculty Position at the Faculty of Science, Shizuoka University, Japan

We seek to appoint one full-time academic staff member who can contribute to the Creative Science Program at Shizuoka University. We seek candidates with research experience in mathematics.

About the Creative Science Program

The Creative Science Program aims to nurture students who have a strong awareness of global issues. Our program aims to educate students who will contribute to innovative research and social development overseas. To achieve this goal, the Creative Science Program conducts unique educational programs such as active learning-style classes, classes to teach presentation and paper writing skills in English, and study abroad.

Position description

This position is for candidates who can fulfill the following three duties.

- (1) Be in charge of developing and teaching the mathematics curriculum in the Creative Science Program.
- (2) Lead a research laboratory as Principal Investigator and conduct research in mathematics.
- (3) Deliver course lectures and supervise students in the graduate school of the Department of Mathematics in Shizuoka University.

Job status

- Associate Professor, Junior Associate Professor, or Assistant Professor (1 position)
- Employment Status: Permanent
- Starting date: The successful applicant can start on April 1, 2026.

Primary Location

Shizuoka Campus of Shizuoka University (Shizuoka City, Shizuoka Prefecture, Japan)

About Shizuoka University

Shizuoka University is a leading institution located in the picturesque city of Shizuoka, known for its rich cultural heritage and beautiful natural surroundings (<https://www.shizuoka.ac.jp/english/>). The Faculty of Science is committed to fostering an environment of academic excellence and innovation.

Salary

- Annual salary system
- Allowances, including those for dependents, management, housing, commutation, special work and overtime work will be provided in accordance with the Shizuoka University guidelines (<https://www.shizuoka.ac.jp/outline/info/kokai/index.html>).

Your skills and experience

- Hold a PhD in the field of mathematics.
- Fluency in English and excellent communication skills for teaching and research supervision in English.
- Skills in the Japanese language sufficient to make an active contribution to university administration.

Application documents

Candidates are requested to submit the following.

- (1) Application form (curriculum vitae, photograph, lists of publications, past achievements and research funds); Form01 (Word and PDF).
- (2) Summary of previous research (two pages, A4 size); Form02 (Word and PDF).
- (3) Research plan for the next five years (one page, A4 size); Form03 (Word and PDF).
- (4) Experience and aspiration for teaching in mathematics and the Creative Science Program (one page, A4 size); Form04 (Word and PDF).
- (5) Copies of up to five most important scientific publications (journal articles, books; PDF).

Application Procedure

The documents (1)-(5) will be uploaded from the web site to our office according to the following procedure. Form 01, 02, 03, 04 (Word and PDF) together with (5) will be set in one folder and compress the folder in zip format. Upload the zip-file "Applicant-Name.zip" from the application site below. Please note that documents submitted by E-mail will not be accepted. Additionally, application documents will not be returned.

* Recruit-information site: http://plaza.umin.ac.jp/~su-bio/recruitment_2025_CSP/

* Application document submission site: <https://www.secure-cloud.jp/sf/business/1745161557juynwFsS>

Deadline

Applications must be submitted by 24:00, August 31, Japan time.

Selection Procedure

Candidates who pass the document review will be contacted for an interview. The first interview will be conducted online, and the second interview will be conducted in person (online for those living overseas).

Further details

- To promote internationalization in both education and research, in the case of equal evaluations, priority will be given to candidates of non-Japanese citizenship or those who have obtained a degree abroad.
- Shizuoka University promotes gender equality and the hiring of female faculty members based on the basic policy of the Shizuoka University Gender Equality Charter and will give priority to female candidates in the selection process when the evaluations are equal. For more information, please visit the website (<https://www.dei.shizuoka.ac.jp/>) or feel free to contact the Office for Diversity, Equity, and Inclusion (takenoko@adb.shizuoka.ac.jp).
- If you would like consideration to be given to periods of interruption to research due to maternity leave, paternity leave, or childcare leave, you may provide a description in the application (Form01).
- Expenses associated with the move will be covered in accordance with the Shizuoka University guidelines.
- Shizuoka University will check the history of candidates for disciplinary action against students due to sexual harassment, sexual violence, abuse of authority, academic harassment, etc. If it is discovered after employment that you have falsified your resume, you will be subject to disciplinary dismissal.
