## **Asia Bridge Program (ABP)**

Shizuoka University's Asia Bridge Program (ABP or ABP-SU), in collaboration with local governments and global corporations headquartered in Shizuoka Prefecture, is designed to educate future global leaders for business and society. The mission is to foster globalization of the Shizuoka community and industry by cultivating and developing highly skilled individuals with a global vision. (For more details: <https://www.abp.icsu.shizuoka.ac.jp/eng/>)

To fulfill the goal of the ABP program, Shizuoka University offers the ABP tuition aid to students who are citizens of the following 16 countries and states, and do not have Japanese nationality. The aid covers the examination fee, the enrollment fee, and the first year's full tuition. The tuition waiver for the second year will be awarded according to each individual's academic performance during the first year. For 2025 October admission, maximum 20 students will receive 40,000 JPY per month for the first 12 months. All the applicants will be considered for this additional financial aid, and the 20 students will be selected according to their performance at the entrance examinations (document screening and interview examination).

The 16 countries and states are: Democratic Socialist Republic of Sri Lanka, Nepal, Republic of India, Kingdom of Thailand, Lao People's Democratic Republic, Malaysia, Mongolia, People's Republic of Bangladesh, People's Republic of China, Republic of Indonesia, Republic of Korea, Republic of Singapore, Republic of the Philippines, Republic of the Union of Myanmar, Socialist Republic of Viet Nam, and Taiwan.

For students who seek admissions to Graduate School of Integrated Science and Technology, but are **not citizens of the foregoing 16 countries and states**, please refer to the other general application guide for international (non-ABP) students.

## **Shizuoka University's Philosophy and Goals**

### **Freedom and Enlightenment & Creation of the Future**

This philosophy of freedom and enlightenment is essential not only for education, but also for original research based on unfettered, free thinking and for mutually enlightening collaboration with society; it should therefore be handed down from one era to the next. Shizuoka University's students and staff (faculty and administrators) recognize this, and continue to uphold the philosophy of "freedom and enlightenment" as a mainstay of our education, our research, and our collaboration with society, industry, and our peers overseas. Joining forces, our students and staff will take determined action to tackle local issues, as well as global issues, continually pursuing peace and happiness for humankind. In this way we will dedicate ourselves to the creation of the future—a future filled with hope.

Guided by its philosophy of "freedom and enlightenment, and creation of the future", as defined above, Shizuoka University will continue contributing to the future of humankind and to the development of the local community by cultivating human resources through high-quality education and creative research. Its endeavors will be bolstered by respect and affection for the abundance of natural and cultural assets found in Shizuoka Prefecture, where the university is located.

## **Admissions Policy – Graduate School of Integrated Science and Technology**

### **◆ Individuals We Cultivate**

The Graduate School of Integrated Science and Technology aims to cultivate science and engineering professionals who can contribute to international research and development and corporate overseas expansion in an increasingly globalized society. They will respond flexibly beyond their specializations to address social needs and science and technology issues. Through our doctoral programs, we also aim to nurture human resources who can engage in more advanced research.

### **◆ Educational Goals**

We equip students with the skills to view interdisciplinary fields from a broader perspective, building on their individual expertise. That includes understanding related areas and recognizing the social significance of their knowledge. Students will also develop the ability to communicate their expertise and related fields in foreign languages and gain the foundational skills required for advanced, independent research at the doctoral level.

### **◆ Students We Seek**

We are looking for students with a strong interest in addressing the social, scientific, and technological challenges of our time and an intense desire to help society through the research and development of science and technology. We also want internationally-minded students who can conduct their studies, research, and development in collaboration with students and researchers overseas.

### **◆ Qualities and Abilities Required for Admission**

Applicants must demonstrate a solid foundation of knowledge and skills in their undergraduate disciplines to qualify for admission. They must also be able to think, assess, and express themselves to apply their knowledge and skills. The final requirements are international communication skills and a willingness to learn in collaboration with people from diverse backgrounds.

## **Admissions Policy – Department of Informatics, Graduate School of Integrated Science and Technology**

### **◆ Individuals We Cultivate**

The Department of Informatics aims to cultivate highly skilled professionals equipped with a wealth of expertise and problem-solving skills when facing an information-intensive society where both society and information technology change daily. Such individuals will contribute to the organization of an exemplary information society and endeavor to produce both new information cultures and consistent progress in information technology, human beings, and society.

### **◆ Educational Goals**

The Department of Informatics combines and integrates information science and sociology to realize systematic, professional education and research. To this end, we have implemented a system with two courses (Course of Advanced Informatics and Interdisciplinary Informatics) and three programs (Computer Science (CS), Behavioral Informatics (BI), and Information Society Design (ID)). Both courses foster highly skilled information specialists. The Course of Advanced Informatics emphasizes acquiring a comprehensive viewpoint through the systematic study of core informatics principles and developing cutting-edge technology and knowledge in response to social needs. Meanwhile, the Course of Interdisciplinary Informatics fuses informatics with other fields and emphasizes practical classes taught by working professionals.

### **◆ Students We Seek**

We are looking for students interested in increasingly sophisticated information in modern society.

They should strongly desire to contribute positively to developing an information society where human beings and technology coexist harmoniously, with the ability to see solutions that integrate and unify computer science and information sociology. Such students should also be equipped with a wealth of expertise and skills to ensure that they achieve their goals.

#### ◆ Qualities and Abilities Required for Admission

The Department of Informatics entrance examination is designed to discern whether applicants have the abilities, scholastic achievement, and aptitude needed to become capable individuals who can contribute to solutions for the wide array of problems that confront today's information society. For applicants who are current members of the workforce, the exam discerns whether they have the abilities, scholarship, and aptitude needed to become highly skilled professionals who have a multifaceted outlook toward the information society and technology that is grounded in an awareness of issues, which itself has been cultivated through practical experience.

#### ◆ Basic Student Selection Policy

##### Special Admissions for International Student English-based Courses

The Department of Informatics aims to cultivate individuals who can contribute to solutions for the vast array of problems confronting today's information society. We comprehensively assess whether applicants have the abilities, scholarship, and aptitude required to become such individuals using the following examinations:

##### (1) First selection round

We determine the applicants advancing to the second round by assessing their basic scholarship related to informatics and specialized academic abilities for the courses they desire based on their application documents.

##### (2) Second selection round

We will hold an interview and oral examination for applicants advancing to the second round. In the interview and oral examination, we will evaluate applicants based on their motivation, future aspirations, commitment, enthusiasm, academic focus, research aptitude, and ability to think logically and express themselves. Furthermore, we will confirm their academic ability in the subjects studied at their alma maters and the themes they wish to research upon admission or have researched in the past.

### **Admissions Policy – Department of Science, Graduate School of Integrated Science and Technology**

#### ◆ Individuals We Cultivate

The Department of Science aims to cultivate individuals who can solve problems in various basic and applied fields based on basic science in an advanced scientific and technological society. We seek scientific minds that will pursue truth for the sake of greater abundance and prosperity for humankind. Toward this end, we cultivate broad perspectives and conduct advanced education and research in our respective fields of specialization. Our scientific education and research aim to develop the insight, adaptability, and ability to take the action required to respond to the diverse needs of an increasingly globalized society. Our primary purpose is to seek an essential understanding of reality and perform educational research driven by innovation. Accordingly, we aim to cultivate capable individuals who have mastered the erudite scholarship needed to work in advanced technology and research worldwide.

#### ◆ Educational Goals

1. We aim to cultivate talented people who have broad perspectives, advanced expertise, and the ability to perform innovative research.
2. Our multiple instructors provide meticulous educational and research-oriented instruction focusing on the organic link between graduate-level lectures, seminars, and independent research.
3. Our education emphasizes foundational principles, standard courses for all majors, and English

language courses to enhance students' ability to look at interdisciplinary fields from a bird's eye view, respond at an international level, and solve problems in their specializations.

#### ◆ Students We Seek

We are looking for students who are deeply engaged in the diverse and complex issues of our modern, globalized society and willing and able to consider reality with a broad perspective that is impartial to any given specialty. We want students with a keen spirit of inquiry into scientific phenomena based on their fundamental principles.

#### ◆ Qualities and Abilities Required for Admission

The Department of Science entrance examination is designed to discern whether applicants possess basic scientific knowledge, the ability to think logically, and a keen spirit of inquiry into scientific phenomena based on their fundamental principles. General admissions and admissions for international students require a written examination to determine the applicants' basic knowledge, ability to think logically in all specialties, and suitable reading comprehension and ability to express oneself in English. They also include an oral examination to assess applicants' academic focus and research aptitude. Finally, in personalized admissions, we evaluate applicants' essential qualities and abilities by reviewing their application documents. We also interview applicants to assess whether they have a positive academic focus and research aptitude while exhibiting a deep interest and enthusiasm in various fields.

#### ◆ Basic Student Selection Policy

##### Special Admissions for International Student English-based Courses

##### First selection round

We determine the applicants advancing to the second round by assessing their basic scholarship related to science and academic abilities for the courses they desire based on their application documents.

##### Second selection round

We will hold an interview and oral examination for applicants advancing to the second round. In the interview and oral examination, we will evaluate applicants based on their motivation, future aspirations, commitment, enthusiasm, academic focus, research aptitude, and ability to think logically and express themselves. Furthermore, we will confirm their academic ability in the subjects studied at their alma maters and the themes they wish to research upon admission or have researched in the past.

### **Admissions Policy – Department of Engineering, Graduate School of Integrated Science and Technology**

#### ◆ Individuals We Cultivate

The Department of Engineering has a philosophy of contributing to creating a prosperous future for humankind, respecting the spirit of freedom and enlightenment based on benevolence. Based on this philosophy, we foster individuals equipped with the ability to find and solve problems related to social needs who will be active leaders locally and globally as they contribute to an advanced technological society through engineering and technology.

#### ◆ Educational Goals

Our education ensures that students enrich themselves and their sensibilities, acquire global awareness, demonstrate leadership to respond flexibly to a diverse society, and become active engineers who produce richly innovative technology.

#### ◆ Students We Seek

We are looking for students who aspire to be engineers or researchers while having the ability to think flexibly about a wide range of fields with highly specialized ability and with the basic scholastic

achievement needed for their course of study and a strong desire for scholarship and research. For the Management of Business Development Course, we expect applicants to create new businesses and values, found a first or second business, and have the desire to manage a practical engineering business from a long-term perspective.

#### ◆ Qualities and Abilities Required for Admission

The Department of Engineering entrance examination is designed to discern whether applicants have profoundly inquiring minds and the basic knowledge required for engineering. The general exam requires a written test that discerns basic knowledge related to each course of study and evaluates English ability using the TOEIC exam (except for the Management of Business Development Course) and an interview exam that assesses applicants' desire and suitability for scholarship and research. Finally, in personalized admissions, we comprehensively evaluate applicants' essential qualities and abilities by reviewing their application documents. We also interview applicants to assess their basic knowledge of each course field, academic focus, and research aptitude.

#### ◆ Basic Student Selection Policy

##### Special Admissions for International Student English-based Courses

We require the following examinations to assess whether applicants have the abilities, scholarship, and aptitude required for academic and research endeavors in their chosen courses after admission:

##### First selection round

We determine the applicants advancing to the second round by assessing their basic scholarship related to engineering and academic abilities for the courses they desire based on their application documents.

##### Second selection round

We will hold an interview and oral examination for applicants advancing to the second round. In the interview and oral examination, we will evaluate applicants based on their motivation, future aspirations, commitment, enthusiasm, academic focus, research aptitude, and ability to think logically and express themselves. Furthermore, we will confirm their academic ability in the subjects studied at their alma maters and the themes they wish to research upon admission or have researched in the past.

### **Admissions Policy – Department of Agriculture, Graduate School of Integrated Science and Technology**

#### ◆ Individuals We Cultivate

The Department of Agriculture provides education and research based on environmental science and bioscience that deepens our understanding of the academic principles and technologies needed to provide food, clothing, and shelter while fostering human resources capable of contributing to the sustainable development of local and international communities.

#### ◆ Educational Goals

1. Students will acquire a wealth of basic knowledge in specialized fields related to the development of local communities and international society, as well as applied skills through education and research emphasizing experimentation and practice.
2. Students will acquire the basic knowledge necessary to become professionals and working adults, forming a foundation for their future research by gaining a broad understanding of the relationship between research and related industries.
3. Students will acquire comprehensive knowledge of various advanced fields in natural science, engineering ethics, and social perspectives and study in their specializations alongside peripheral and interdisciplinary fields.

#### ◆ Students We Seek

The program accepts students with the following attributes, as well as a broad basic knowledge of

agricultural sciences and a strong motivation for research and technological development:

1. Students interested in developing technologies for sustainable production and utilization of biological resources with an emphasis on the environment while possessing innovativeness, competence in applied science, and an international outlook;
2. Students with a strong interest in biological resources and environmental issues directly related to the survival of humankind and a powerful sense of mission to contribute to solving these problems.

#### ◆ Qualities and Abilities Required for Admission

Students must have a broad basic knowledge of agricultural science and expertise in the field of their choice, as well as the ability to pursue their studies and research activities after admission, with a strong desire for research and technological development. For this reason, each course has an academic exam in specialized subjects to determine whether applicants have the basic academic skills required for research and an interview exam to determine their motivation for research and communication skills. Students must also be able to read and understand foreign languages to comprehend the references needed for research.

#### ◆ Basic Student Selection Policy

##### Special Admissions for International Student English-based Courses

We require the following examinations to assess whether applicants have the abilities, scholarship, and aptitude required for academic and research endeavors in their chosen courses after admission:

##### First selection round

We determine the applicants advancing to the second round by assessing their basic scholarship related to agriculture and academic abilities for the courses they desire based on their application documents.

##### Second selection round

We will hold an interview and oral examination for applicants advancing to the second round. In the interview and oral examination, we will evaluate applicants based on their motivation, future aspirations, commitment, enthusiasm, academic focus, research aptitude, and ability to think logically and express themselves. Furthermore, we will confirm their academic ability in the subjects studied at their alma maters and the themes they wish to research upon admission or have researched in the past.

### **Admissions Policy – Interfaculty Graduate School of Mountain Watershed**

#### ◆ Students We Seek

We are looking for students interested in studying the natural environment and addressing social issues inherent in mountainous watersheds. They should intensely desire to contribute to society and develop related scientific fields by independently acquiring specialized knowledge and field skills. We also want internationally-minded students who can conduct their studies, research, and development in collaboration with students and researchers overseas.

#### ◆ Qualities and Abilities Required for Admission

Applicants must demonstrate a solid foundation of knowledge and skills in their undergraduate disciplines to qualify for admission. They must also be able to think, assess, and express themselves to apply their knowledge and skills. Moreover, they need the motivation to acquire field skills and a bird's eye view of watersheds.

#### ◆ Basic Student Selection Policy

##### Special Admissions for International Student English-based Courses

The following examinations assess whether applicants have the abilities, scholarship, and aptitude

required for academic and research endeavors in the academic fields related to mountain watersheds after admission:

First selection round

We determine the applicants advancing to the second round by assessing their basic scholarship related to mountain watersheds and academic abilities based on their application documents.

Second selection round

We will hold an interview and oral examination for applicants advancing to the second round. In the interview and oral examination, we will evaluate applicants based on their motivation, future aspirations, commitment, enthusiasm, academic focus, research aptitude, and ability to think logically and express themselves. Furthermore, we will confirm their academic ability in the subjects studied at their alma maters and the themes they wish to research upon admission or have researched in the past.

## I. 2025 October Admissions Overview/Capacity

Department	Course	Number of Students for October 2025 Admissions
Informatics (Hamamatsu Campus)	Advanced Informatics Interdisciplinary Informatics	Total 40*
Science (Shizuoka Campus)	Mathematics Physics Chemistry Biological Science Geosciences	
Engineering (Hamamatsu Campus)	Mechanical Engineering Electrical and Electronic Engineering Electronics and Materials Science Applied Chemistry and Biochemical Engineering Mathematical and Systems Engineering	
Agriculture (Shizuoka Campus)	Bioresource Sciences Applied Life Sciences	
Interfaculty Graduate School of Mountain Watershed (Shizuoka Campus)		

\* Under any circumstances, even if the number of applicants who passed this entrance examination is less than the indicated number above, no additional successful applicants will be announced, or no additional entrance examinations will be scheduled.

## II. Eligibility Requirements

Applicants must fulfill all eligibilities 1), 2) and 3):

- 1) Do not have Japanese nationality.
- 2) Have nationality of at least one of the following countries and states:

Democratic Socialist Republic of Sri Lanka	Nepal
Republic of India	Kingdom of Thailand
Lao People's Democratic Republic	Malaysia
Mongolia	People's Republic of Bangladesh
People's Republic of China	Republic of Indonesia
Republic of Korea	Republic of Singapore
Republic of the Philippines	Republic of the Union of Myanmar
Socialist Republic of Viet Nam	Taiwan

- 3) Applicants also must fulfill either of the eligibility a) OR b) indicated below:

a) Have completed at least three academic years of university education curricula outside Japan and have a bachelor's degree or an equivalent certificate (Or expected to complete by September 30, 2025).

b) In case a) is not satisfied, the applicants must have been reviewed and approved by either of the Departments (Informatics, Science, Engineering or Agriculture at the Graduate School of Integrated Science and Technology) or Interfaculty Graduate School of Mountain Watershed to have the eligibility, e.g. Preliminary review of eligibility requirement. Note that graduates of Japanese universities or students who are expecting to graduate from Japanese universities are not eligible.

Applicants who wish to apply with **the Eligibility Requirement 3b)** must submit the required documents to the department for the Preliminary Review of the eligibility. Each department provides its own form for the preliminary review. Please first email to the department you want to apply between Monday, December 9, 2024 and Friday, January 10, 2025 and ask for the procedure. Failure to request the Preliminary Review and not fulfilling the Eligibility Requirement 3b) will result in losing the eligibility to apply for the October 2025 admissions. After emailing to the department, you will be asked to fill the designated form, and submit the necessary documents to mail them by post. All the documents must arrive at Shizuoka University no later than Friday, January 24, 2025. Please note that the requirement of each department is different. The result of the Preliminary Review will be notified by Thursday, February 20, 2025.

The examination fee is not required at the time of the Preliminary Review. The departments' email addresses are listed as follows:

[IMPORTANT]

**All the documents including the passport/national identification card must be issued in Japanese, English, or with English alongside the native (original) language. If any of documents are issued neither in Japanese or English, then they must contain the English translation that has been notarized by the university, an embassy, or a notary office.**

## 2. Course and Department to Apply

Please refer to the section I. “2025 October Admissions Overview/Capacity” on page 9. As of 2025 admissions, the second-choice option is no longer available for all the departments. Applicants may choose one course and one prospective academic supervisor only.

**Applicants for the departments of Informatics, Science, Agriculture, and Interfaculty Graduate School of Mountain Watershed are required to have contacted a prospective academic supervisor and obtained approval in advance. Applicants for the department of Engineering are encouraged to contact a prospective academic supervisor and obtain approval in advance. Faculty members that students wish to receive supervision can be found in the list at the end of this application guide.**

## 3. Online Application System

All the application documents are accepted only through the online application system. Any mailed or submitted-in-person documents will not be accepted. Applicants must follow the on-screen directions on the website, which will be opened at the beginning of the application period. Please check our website frequently for updates:

<https://www.abp.icsu.shizuoka.ac.jp/eng/>

When you submit your application form, you will receive a completion notice via email. However, you will receive an incompleteness notice when you submit your application after the deadline.

If you encounter any technical errors or do not receive the completion notice, please contact at the following email address:

ABP admissions office,

Organization for International Collaboration, Shizuoka University

## 4. Application Period

Monday, March 10 to Friday, March 14, 2025

(The application website opens at noon, Japan time on the first day of period, and closes at noon on the last day.)

## IV. Selection Procedure

The first round selection is based on a comprehensive review of all documents submitted by the applicants. Only the successful applicants will be invited to an internet interview examination for the second round selection. The final decision will be made by the examination committee, based on an overall assessment of both interview examination and evidence provided in the application documents.

### 1. First Round Selection (Document Screening)

The first round selection will be based on each applicant's submitted documents. The result of the first round selection will be announced on the following departments' websites on Thursday, May 1 2025:

- Department of Informatics

<https://www.inf.shizuoka.ac.jp>

- Department of Science

<https://www.sci.shizuoka.ac.jp>

- Department of Engineering

<https://www.eng.shizuoka.ac.jp>

- Department of Agriculture

<https://www.agr.shizuoka.ac.jp>

- Interfaculty Graduate School of Mountain Watershed

<https://www.igsmw.shizuoka.ac.jp/>

### 2. Second Round Selection (Interview Examination)

For applicants who have passed the first round selection, the second selection will be an online interview examination through internet (such as Zoom). The interview examination will be scheduled between Monday, May 19 and Friday, May 30, 2025, and each applicant will be contacted for the details via email. Applicants are required to secure high-speed internet access at the time of the interview examination.

## V. Notification of Final Result

Wednesday, June 11, 2025

The result will be announced on the following departments' websites. Successful applicants will also be notified via email.

- Department of Informatics

## VI. University Registration and Enrollment Period

Deadline of the Letter of Commitment: Friday, June 20, 2025

Registration: Late September 2025

Enrollment: Wednesday, October 1, 2025

## VII. Important Reminders

### 1. Enrollment Fee and Tuition

Enrollment Fee: 282,000 JPY (As of 2024)

Tuition Fee: 535,800 JPY (As of 2024)

The enrollment fee and the first year's full tuition are waived for students who are eligible for the ABP tuition aid. The tuition waiver for the second year will be awarded according to each individual's academic performance during the first year.

Tuition and other fees for the Shizuoka University admissions are standardized and determined by the Ministry of Education, Culture, Sports, Science and Technology, Japan. If the tuition is increased while school is in session, the new amount shall apply from the date that becomes in effect.

## 2. Other Initial Expenses at the Time of Enrollment

Department	Expense	Amount (JPY) (As of 2024)
Informatics	Student welfare society fees	12,430
Science	Welfare society fees	10,000
Engineering	Miscellaneous expenses	11,430
Agriculture	Supporter's association fees	12,430
Interfaculty Graduate School of Mountain Watershed	Miscellaneous expenses	12,430
All departments	Housing fees (Shizuoka University International Residence)	Rent: approx. 25,000 monthly CAM: approx. 3,000 monthly Restoration and cleaning fee: 5,500-13,200

\*Amounts are subject to change.

The other initial expenses at the time of enrollment listed above are for the associations in which students are to join by understanding the purposes, and that provide them with educational and other-related assistances. In addition, all students of Shizuoka University are enrolled in "Personal Accident Insurance for Students Pursuing Education and Research" to prepare for any unexpected incidents during the course of the regular curriculum. The costs for this insurance are included above.

### Personal Accident Insurance for Students Pursuing Education and Research

This insurance covers disasters and accidents met by students during educational and research activities (e.g. the course of regular curricula, school events, extracurricular activities, and a break on campus), and while commuting (including from home to campus for regular curricula, school events, and extracurricular activities, and from facility to facility on campus). The Japan Educational Exchanges and Services maintain this insurance policy as a national mutual-aid system. All students at Shizuoka University are enrolled in this insurance.

### Personal Liability Insurance for Students

In addition to the insurance above, liability insurance for students are also strongly recommended for all students. It covers 24 hours a day, wherever you are (on-campus, off-campus, even when you are traveling back to your country). For application, go to the University CO-OP.

Price 3,000 JPY (University CO-OP membership fee) + Insurance fee 4,520 JPY (2 years)

\* University CO-OP membership fee (3,000 JPY) will be returned when you graduate.

## 3. Housing and Personal Expense in Campus Life

ABP students must live in Shizuoka University Dormitories (Shizuoka International Residence, Hamamatsu International Residence or Akebono-ryo) for the first two years from the day of the enrollment. Housing fees vary depending on each dormitory. Rent shown in the table above is the maximum amount. The support team shall contact successful candidate individually with further details. For more on Dormitories, see the following website:

<https://www.suoic.shizuoka.ac.jp/english/international/dwelling/>

Living cost should be covered by personal expense. It will cost around 70,000 JPY to 80,000 JPY per month in Shizuoka, including housing, food, utilities and others. Please refer to the following website for the University dormitories:

<https://www.abp.icsu.shizuoka.ac.jp/eng/>

#### **4. Requests for disclosure of examination results**

Applicants who failed the second round selection can make a request for the disclosure of their entrance examination results. For questions regarding these requests, please contact the following office during the request period: Monday, November 17 - Monday, December 15, 2025:

Admissions Section, Student Affairs Division

Telephone: +81 - (54) - 238 - 4464

Email: [exam-result@adb.shizuoka.ac.jp](mailto:exam-result@adb.shizuoka.ac.jp)

836 Ohya, Suruga-ku, Shizuoka-shi, Shizuoka, 422-8529 Japan

## 5. Handling of Personal Information

Personal information is handled in accordance with the “Act on the Protection of Personal Information Held by Incorporated Administrative Agencies, etc.,” and the “Shizuoka University Code on Personal Information Management” in the following manners:

- (1) Personal information recorded on all application documents will be used for (a) selecting new students (processing application and making selections), (b) announcing the results, (c) processing registration, and (d) investigating admission selection methods and university education improvements.
- (2) The examination results in admission selection will be used in compiling materials for the investigation of future admission selection methods.
- (3) Personal information for new students will be used for work related to (a) educational affairs (student registration, learning assistance, etc.), (b) student support (health care, tuition exemption and scholarship applications, employment support, etc.), and (c) tuition collection.
- (4) For the (1) and (2) above, some duties may be undertaken by contractors entrusted by the university. The contractors will be provided with some or all personal information only to the extent needed to complete the said duties.

## 6. Contacts

For questions regarding the application guide and entrance examination, please email to the following office(s):

- Department of Informatics (Hamamatsu Campus)

## 7. Security export control

Shizuoka University has established the "Shizuoka University Security Export Control Regulations" based on the "Foreign Exchange and Foreign Trade Act" and conducts strict examinations when accepting foreign students. Please note that the students may not be able to receive the desired education or conduct a research if they fall under the regulations.

## How to find your prospective academic supervisor in Shizuoka University

Based on your research interests, choose a prospective academic supervisor with whom you wish to work. For the names and research expertise of the professors, please visit the given website and refer the attached list below. Applicants for the departments of Informatics, Science, Agriculture, and Interfaculty Graduate School of Mountain Watershed must contact their preferred professor and obtain his/her approval in advance. Applicant for the department of Engineering are encouraged to contact their preferred professor beforehand and consult the applicant's research plan.

\* When you email, please add “shizuoka.ac.jp” at the end of the professors' email addresses (For example, “abpexample[a]” should be replaced with “abpexample@shizuoka.ac.jp”).
